

when I heard that advocates of LPFM feel that K-LOVE has little or no value; I WAS SHOCKED. Either they have never listened or they are never moved. K-LOVE is an uplifting station that provides motivation, spiritual guidance, and "the WORD" that we need to have daily. This is provided to local communities all around. The many listeners that would be affected by your actions would be astronomical! Just think of the many that listen and build bonds and stronger relationships because something on K-LOVE helped them. I seriously think that taking K-LOVE off the air would be a detriment to all of our local communities because you are taking something that is for the "GOOD" of the people. Please do not take K-LOVE off the air.

Thank you,
Debbie Hansen
